SUMMARY

Product designer with experience simplifying complex workflows across fintech and investment data products through information architecture, interaction design, and prototyping. Currently pursuing an MFA in Interaction Design at the School of Visual Arts in New York.

EXPERIENCE

Fieldmentor | Product Designer (Contract) Nov 2024 - Mar 2025

• Designed onboarding, the homepage, and professional golfer scheduling interfaces for Field Mentor, a B2B SaaS platform supporting corporate golf events.

• Created user flows for a service that coordinates golf course reservations and professional golfer bookings, helping companies plan and manage golf events.

The VC | Product Designer Mar 2023 - Mar 2025

• Restructured homepage information architecture and content discovery based on user behavior analysis, with profile visits increasing 49% after launch.

• Designed grant eligibility filters and saved searches informed by founder interviews, with page views growing 39% from August to September 2024.

• Streamlined collection creation through filter-based setup and company-update notifications, with “Add to Collection” actions doubling by February 2025.

The Blue Hour | Product Designer (Contract) Jan 2024 - Dec 2024

• Conducted user research and interviews with hikers in their 40s–60s to shape Po-in, a hiking rewards and commerce app serving 12,000 members.

• Designed shopping experiences that let users redeem hiking points for outdoor gear and apparel, contributing to a 5.1% purchase conversion rate and 34% repeat purchase rate.

• Designed hiking verification, rewards, and gamified experiences to encourage return visits, supporting a product with 58.2% one-month retention among users who verified hikes.

PFCT - PFC Technologies | Product Designer Feb 2021 - Oct 2022

• Created a guided UX for document submission, making the mortgage process more accessible and driving a 2× conversion increase.

• Refined UX for unsecured loan data to guide novice investors, resulting in 94 successful registrations and improving comprehension of risk.

• Designed the brand system, key visuals, components, and information architecture for an online tech conference.

Lof Archive | Founder & Designer Feb 2019 - Feb 2021

• Founded and operated a leather goods brand, overseeing product design, visual identity, photography, and online store operations.

• Designed and produced wallets, keyrings, and cases, combining functional requirements with a consistent visual identity.

Elim.net | User Interface Designer Jan 2020 - Nov 2020

• Contributed to interface design for Elim.net’s B2B SaaS video conferencing platform, supporting online meetings and collaboration for business users.

• Created and managed blog visuals for marketing communications.

EDUCATION

School of Visual Arts (SVA) Sep 2026 – May 2028 (Expected)
MFA, Interaction Design

Seoul National University of Science and Technology Mar 2014 - Feb 2019
BFA, Ceramic Arts and Design | Minor in Design
GPA: 3.74

CERTIFICATION

Google Analytics Individual Qualification Issued May 2020

AWARDS

JunctionX Seoul Hackathon | Microsoft Track Winner & Grand Prize Oct, 2020

• Conceived Speech-to-Text (STT) and Text-to-Speech (TTS) interaction flows to aid users with hearing or visual impairments, designing accessible video-conferencing prototypes for a 48-hour team hackathon.

• Restructured Information Architecture to embed accessibility features as invisible supports, delivering clean Desktop and Mobile bottom-sheet UIs.

• Partnered with developers to adapt technical API limits into seamless UX, co-leading the live presentation to win both the Microsoft Track and Grand Prize.
